DETAILED ACTION

Response to Amendment

1. Applicant's amendments and remarks dated 01/27/2006 have been acknowledged by the Examiner and entered. Claims 2 and 4 have been canceled.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in the prior Office Action.

Claim Rejections - 35 USC § 112

3. The 35 U.S.C. §112 rejection of claims 1 and 3 is withdrawn, in light of the latest amendments.

Claim Rejections - 35 USC § 102

4. Claim 1 is rejected under 35 U.S.C. 102(b) as anticipated by Ohashi et al. (US 4999578).
See the appropriate paragraphs of the prior Office Action.

Claim Rejections - 35 USC § 103

5. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ohashi in view of Itoh et al. (US 5445037).

See the appropriate paragraphs of the prior Office Action.

Response to Arguments

6. Applicant's arguments dated 01/27/2006 have been fully considered but they are not persuasive and moot in view of the new grounds of rejection.

Applicant argues that the Ohashi patent lacks a 'moving mechanism' that moves the 'holder holding mechanism' not only horizontally, but also up and down.

Examiner disagrees. As was previously discussed, Ohashi discloses an inspection system comprising, as illustrated in Figure 1, at least two of parallel conveyance paths formed by belt conveyors (38, 39, 40-43) having guide rails and a plurality of "sliding traversers" (indexed 31, 32-37) moving horizontally between the sections of the conveyor paths. Figure 2 shows the sliding traverser 31 coupled to a 'moving mechanism' comprising slider 313, cylinder 316 vertically attached to the slider 313 and rod 317 "coupled to a piston which slides in the cylinder 316 to move the rest 318 of the sliding traverser ['holder holding mechanisms' – Ex.] up and down. (Col. 3, lines 50-65).

Applicant argues that the Ohashi patent lacks sections with removed guide rails arranged in at least two conveyors. Examiner notes that sections arranged along the two parallel conveyance paths (Figure 1) for moving sliding traversers between the paths do not have guide rails.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
